The Illuminating Engineering Society of Australia and New Zealand is an organization with Chapters in the five mainland States of Australia and New Zealand. The Society operates under the name: IES: The Lighting Society.

The aim of the Society is the advancement of the art and science of illumination and the dissemination of knowledge to all interested parties. The Society's diversified membership includes engineers, architects, educators, students, contractors, manufacturers and designers.

Arcus

Arcus is the official newsletter of the QLD Chapter of the Illuminating Engineering Society of Australia and New Zealand.

Memberships

There are two types of membership available; individual and corporate (or company).

For further information on membership contact Queensland Chapter at the below address or visit the ies website.

QLD Chapter Management Committee

- President:** Andrew Chase
- Vice President/ Lighting Design Awards:** Steve Hare
- Annual Dinner:** Felicity Kammholz
- Secretary & Treasurer:** Michelle Knowles
- Membership and Education:** Quang Tran
- Arcus:** Adrianna Barr
- Lighting Innovation Awards:** Eric Isdale
- Student Liaison/Educators Committee:** Gillian Isoardi
- Technical Meetings:** Peter Parnell & Michael Dowling
- Advocacy:** Paul Doig, Trent Dutton & Doug Brimblecombe

Advertising

To advertise into Arcus please contact the QLD Chapter Secretary at the email address provided on this page.

Pricing for advertising is \$20 for members and \$50 for non-members.

Member Page

IES Qld Chapter members are welcome to submit information on employment changes – including new positions, promotions, and 'available for hire', for inclusion in Arcus. Members wishing to be included are requested to send a photo and a short blurb (20 – 30 words) for inclusion in the newsletter, to the editor, **Adrianna Barr**, at adrianna.barr@wsp.com

PRESIDENT'S MESSAGE

Welcome everyone to this month's instalment of Arcus!

The awards night on Friday the 8th November and the venue below and the tables are filing up fast. The room for the awards night has been designed for these types of events has state of the art acoustics to help with the noise whilst the presentations are taking place with multiple screens for viewing from all parts of the room. For pre-dinner drinks and nibbles there will be an area outside the main room that will be designated for us to provide a comfortable pre dinner chat.

Tables can be purchased from the IES website so please do not hesitate to start booking tables to secure your place at this year's exciting event. Please note that this venue holds tables of 10 and not 12 as in the past few years.

I can also confirm that the MC this year will be Nicole Dyer from ABC radio Gold Coast. Nicole has vast experience in host nights like this as well as being the compare for the 2018 Gold Coast Commonwealth Games for our National broadcaster. I am sure that Nicole will keep the night moving and interesting.

We have also hired some light entertainment for the night to keep things relaxing.

During last week we hosted a Technical Meeting and discussion on the Control of the obtrusive effects of outdoor AS/NZS 4282:2019. A great amount of gratitude goes out to Kerry Simpson from the Committee and so many thanks to the members that were in attendance. I am sure future Technical Meetings will be as insightful and interesting, so I encourage you to keep an look out for the next meetings arranged by Peter Parnell and Michael Dowling. Plaudits to you both.

THECALILEHOTEL.COM

That's it from me for this month. Enjoy this addition of Arcus. As always, please don't forget about our social media platforms: Or feel free to message me at gldpresident@iesanz.org

Andrew Chase
Queensland Chapter President
gldsecretary@iesanz.org

RECENT TECHNICAL MEETING - CONTROL OF THE OBTRUSIVE EFFECTS OF OUTDOOR LIGHTING

Thank you to all of those who attended our most recent technical meeting hosted by Kerry Simpson. The meeting highlighted the changes made in the most recent issue AS/NZS 4282 – Control of the Obtrusive Effects of Outdoor Lighting. This will be the last technical meeting held for 2019, we are looking forward to our next meeting in February 2020 to discuss the award winners.

EDUCATION

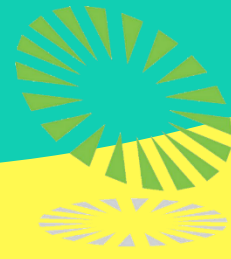

Expressions of interest are still open for the IESANZ CLDA (Certificate Lighting Design and Application) 2 year course for Brisbane. The course will be undergoing a refresh in 2020, Contact the Education Coordinator, Susan Wall for further information on 0417 057 177 or susan.wall@iesanz.org

LIGHT IN FOCUS: HUMAN CENTRED DESIGN

We invite you to join us for our inaugural IESANZ Conference in Melbourne, 21 – 22 November 2019

This Conference will engage individuals and organisations from all professional fields working in the built environment. We will explore the creation and application of Human-Centred Design in lighting, and expand the conversation across engineering, construction, design, landscaping, product development and technology. Human-Centred Design recognizes the importance of behavioural, emotional and environmental contexts in the creation of lighting, products and usable spaces. It encourages designers to see product users as real human beings with real, complex lives, instead of just as numbers.
